the miles.*

CountryMark's Advantage™ Full Synthetic Diesel Engine Oil is engineered for hard-working diesel engines. This unique formulation offers outstanding wear protection, oil consumption control, and extended-drain technology. Whether hauling, towing heavy loads, driving off-road, or just dealing with stop-and-go driving, results have shown greater than 2% fuel economy over conventional diesel engine oils under all working conditions.

Fleet owners of on-road and off-road equipment have many concerns about how the new emission requirements are affecting the diesel engine oil in their equipment. CountryMark's Advantage™ Full Synthetic Diesel Engine Oil provides the ultimate level of protection for both current diesel engines with exhaust emission control systems, as well as older heavy-duty diesel engines. This distinctive formulation is designed for maximum engine performance.

Features and Benefits

Improved Fuel Economy: Proven to deliver greater than 2% fuel economy over conventional diesel engine oils under all driving conditions.

Exceptional Wear Protection: Minimizes soot-related abrasive wear. Patented dispersant technology delivers twice the soot handling capabilities of most API CJ-4 oils.

Extended Drain Intervals: Capable of extending the drain intervals in all diesel engines - including those powered by low sulfur and ultra low sulfur diesel fuel.

Exceptional Properties: Delivers exceptional low-temperature flow properties, oxidation stability, TBN and viscosity retention, deposit control, engine protection and durability, and soot-handling ability.

Safety and Health

Caution! Customers are advised to check the oil recommendations for their equipment. Equipment manufacturers recommend specific viscosity grades of oil for certain ambient temperature ranges. Use of oil outside its recommended temperature range can cause lubrication-related problems and lead to permanent engine damage.

Applications

CountryMark's Advantage Full Synthetic Diesel Engine Oil is formulated to meet or exceed a variety of specifications and requirements by engine manufacturers, including:

- API CJ-4, CI-4 PLUS, CI-4, CH-4, CG-4, SM
- CUMMINS CES 20081
- CATERPILLAR ECF-2, ECF-3
- MACK EO-O PREMIUM PLUS
- VOLVO VDS-4
- RENAULT RLD-3
- DETROIT DIESEL POWER GUARD 93K218, 93K215, 93K214
- ACEA E7-04
- MERCEDES-BENZ P228.3, P228.31
- MAN
- MTU TYPE I AND II
- JASO DH-2
- GLOBAL DHD-2

Properties	Test	Advantage SAE 15W-40
Viscosity @100°C	D445	14.8
Viscosity Index	D2770	169
CCS Viscosity @-30°C (cP max.)	D5293	6600
Pour Point °C	D97	-49
TBN	D2896	10.5
Sulfated Ash Mass%	D874	0.99
